## BRONTE COLLEGE SUMMER CAMP 2009 (AGES 10-17)

Bronte College first offered a Summer Camp (Language Study & Tour Program) in 1996. The success of the camp has grown with each year and has attracted young people from all over the world. Founded in 1991, Bronte College of Canada is a private, co-educational day and boarding school committed to providing a learning environment that emphasizes academic excellence and individual growth.

Bronte College offers two types of camps for students who would like to either improve their English through the Fun ESL Summer Camp or to those who would like academic enrichment with the Fun Math and Science Summer Camp.

The program is designed to provide constant supervision in a caring environment. Each class will have approximately 2.5 hours of instruction. All camps include classroom instruction, accommodation, nutritious meals, health insurance, daily activities, trips and weekend excursions.

Children who attend our camps will return home with lasting memories and new friends from Canada and other countries.

## LOCATION

Bronte College is centrally located in Mississauga in the Greater Toronto Area. The college is just 20 minutes from downtown Toronto and from Toronto Pearson International airport. Participants will stay in the residence of Bronte College as well as enjoy the facilities of the private high school. The building has restricted access to authorized staff, students and visitors and is monitored 24 hours a day. There is also a state-of-the-art fitness facility, a gymnasium, as well as fully equipped computer, science, art labs and a music room.

### FUN ESL SUMMER CAMP

The Fun ESL Summer Camp focuses on communicative activities, learning to understand North American English through watching and discussing TV shows, the news and movies, reading and talking about current events, practicing different forms of writing journals and classroom debates. The program allows participants to learn English through formal in-class teaching as well as from applied activities in science and arts.

### FUN MATH & SCIENCE CAMP

This camp caters to students who have an interest in Math and Science. The program is directed by our science faculty, who design activities that are both engaging and interesting peaking students' cravings for deeper knowledge. Participants will hone their skills in math and science through formal in-class teaching and experiments.

### EXCURSIONS AND ACTIVITIES

Participants from both the ESL and the Math & Science Camps will come together for afternoon and evening activities. The campers will experience Canadian culture through exciting trips and activities including major attractions and a wilderness experience (4 week only).

### CAFETERIA

The full food service cafeteria provides nutritious meals catered by an international team. Meals are offered seven days per week, and includes breakfast, lunch and dinner from Monday to Friday, brunch and dinner on weekends (Saturday and Sunday). Special meals are prepared to accommodate students with dietary restrictions.

## RESIDENCE

Bronte College owns and operates its own student residence. The campus residence offers safe and comfortable rooms; the majority of the rooms are for single occupancy and a few are for double occupancy. The residence is ideal and convenient since it is directly connected to the rest of the school and facilities. The residence is not co-educational. Male and female students are restricted to different levels of the residence building and are closely monitored 24 hours per day, 7 days a week. The bathroom facilities are shared by five or six rooms. Participants are able to use the laundry facilities (washers and dryers) in the residence building.

## HOW TO REGISTER

Please submit a Bronte College Summer Camp Registration Form and 2 passport size photographs.

- By Email - You can send your registration form to [summercamps@brontecollege.ca](mailto:summercamps@brontecollege.ca)
