March 8, 2010

Dear Parents,

The second semester Interim Report Card that gives an early indication of how your son or daughter is doing in their classes has been given to them. We have also made the marks available to you through the parent portal. It is very important that students achieve at a minimum of level 3 to be able to pass their courses this semester. If your child is achieving below the expected level, you may wish to book an appointment with the teacher or contact them by email to review what steps must be taken for success to be achieved in the course.

It is our experience that students achieve the most success in a course when they are attending regularly, completing homework and handing in all the required assignments. Please review with your son or daughter these expectations and use our parent portal to follow-up on your child's attendance and academic standing.

If you have any questions regarding the Interim Report Card, please contact your child's teacher, Dr. Gouda, Head of Student Governance at extension 2042 or me at extension 2043.

Sincerely,

Diane Finlay,
Principal
